UTV

CRIMINATOR™ BORDER SENTINEL XD MOBILE SURVEILLANCE & RAPID RESPONSE POLARIS RANGE XD 1500 CHASSIS

The Crinator™ Police Response Vehicle is engineered for rapid law enforcement deployment in environments where traditional patrol vehicles fail. Designed for rural counties, wooded areas, flood zones, and off-road incidents, this platform delivers mobility, security, and command capability in one integrated system.

INTEGRATED REAR DETAINMENT COMPARTMENT

- Secure steel detainment enclosure
- Reinforced interior with restraint anchoring points
- Exterior access control locking system
- Internal ventilation & lighting
- Rear observation window with ballistic-rated grille
- Wash-down interior for sanitation

(Optional) dual detainee configuration available.

FULL SHERIFF EMERGENCY INTEGRATION

- Roof-mounted emergency lightbar (Red/Blue)
- Front grille strobes
- Siren & PA system
- Radio command console
- Spotlights (A-pillar mounted)
- Auxiliary power system

PLATFORM BASE: POLARIS RANGER XD 1500

- 2,500 lb bed capacity
- 3,500 lb towing capacity
- Gas engine - no charging limitations
- Heavy-duty driveline for extreme desert use
- 2WD / 4WD selectable
- Long service intervals
- Proven reliability in extreme heat

TOW-BEHIND TACTICAL SUPPORT TRAILER

- Enclosed police supply trailer
- Evidence containment storage
- Traffic control equipment storage
- Tactical gear racks
- Generator compartment
- Scene lighting kit
- First aid & emergency response kits

EXTREME TERRAIN RESPONSE

- High ground clearance
- Off-road suspension system
- All-terrain tires
- Winch system (front-mounted)
- 4x4 drivetrain
- Heavy-duty braking system

The **Crinator™ Police Response Vehicle** combines extreme mobility, secure detainment, and tactical support in one purpose-built platform — giving sheriff departments faster response, greater control, and reliable performance in any terrain.

WHY UPFITUTV?

Fully mission-specific builds | Fast prototype turnaround | Modular architecture for future upgrades | Built for desert heat and harsh environments | Designed with direct operator input

CRIMINATOR™ POLICE RESPONSE VEHICLE

Built on the Polaris Ranger XD 1500 Platform.

Rapid Deployment. Tactical Control. Off-Grid Capability.

Platform Specifications

POWERTRAIN

Specification	Details
Engine	ProStar 1500cc DOHC 3-Cylinder (1,498cc)
Horsepower	110 HP
Torque	105 lb-ft
Transmission	STEELDRIVE Automatic (Steel Belt CVT Replacement)
Drive System	On-Demand AWD / 2WD / Turf Mode

CAPACITY

Towing Capacity	3,500 lbs
Hitch Type	2" Receiver
Cargo Box Capacity	1,500 lbs
Payload Capacity	Up to 2,500 lbs
Seating Capacity	3 (Standard) / 6 (Crew Variant)

DIMENSIONS

Overall Length	137 in
Overall Width	65 in
Overall Height	78 in
Wheelbase	95 in (Standard) / 127 in (Crew)
Ground Clearance	15 in
Turning Radius	15.1 ft
Dry Weight	Approx., 2,826 - 3,380 lbs

CARGO BED

Fuel Capacity	13.6 gallons
Charging System	140 Amp (NorthStar)
Brakes	4-Wheel Hydraulic Disc

SUSPENSION

Front Suspension	Dual A-Arm
Rear Suspension	Dual A-Arm
Suspension Travel	Approx. 12 in

SOME OF OUR BUILD PACKAGES

Patrol Response

Off-road patrol unit with sheriff graphics, LED lightbar, siren/PA, radio mount, winch, and rear cargo storage. Ideal for: Rural patrol & event support.

Detainee Transport

Adds secure rear steel detainment carrier (single/dual), ventilation, lighting, wash-down interior, and cab partition. Ideal for: Field arrests & warrant service.

Search & Rescue

High-output scene lighting, medical storage, generator compartment, recovery kit, and equipment trailer. Ideal for: Storm, flood, and missing person response.

Tactical Response

Reinforced detainment unit, weapon storage, tactical racks, suspension upgrade, auxiliary power, and gear trailer.

Ideal for: High-risk operations & perimeter control.

Mobile Command

Rear workstation, dual communications screens, LTE booster, lighting mast, inverter system, and support trailer. Ideal for: Large-scale incidents & multi-agency coordination.

Full Command Edition

Complete turnkey platform combining detainment, tactical, rescue, command systems, and supply trailer.

ENGINEERING & FABRICATION CAPABILITIES

- CAD design support
- Aluminum fabrication
- Composite module construction
- Powder-coated structural frames
- Integrated electrical harness design
- Mil-spec wiring standards available
- Low-volume custom builds
- Fleet deployment capability

WE BUILD WHAT YOU NEED

If your mission requires something unique — mobile biometric stations, portable barriers, mobile tower systems, integrated radar — we engineer it.

No pre-set limitations.

No cookie-cutter builds.

Optional ballistic panels and ballistic-rated glazing are available upon request and sourced from certified manufacturers. Final protection levels are dependent upon selected materials and agency-specified requirements. Emergency lighting and warning equipment are installed in accordance with applicable FMVSS and other federal, state, and local regulations. All Criminator Police Response Vehicle configurations are engineered to align with applicable vehicle safety and operational compliance standards.
